EDUCATION

The University of Maryland, College Park | College Park, MD

B.S. in Computer Science, B.M. in Music Composition, Minor in Philosophy | GPA: 3.88/4.0

May 2026

TECHNICAL SKILLS

Programming: Java, Python, JavaScript (Node/React), Rust, OCaml

PROGRAMMING EXPERIENCE

- Chess engine using an advanced game tree search algorithm in Rust
- Web applications to track climate change in Javascript
- Lexer, Parser and Interpreter for MicroCaml in OCaml
- Regex acceptance with NFA to DFA conversions in OCaml
- Shell executor for I/O redirection and process management in C
- Text editor in C

WORK EXPERIENCE

Lead Guitarist on Two National Tours with Lyn Lapid

Fall 2022 - Summer 2023

- Played 20 cities in the U.S. and Canada at sold-out venues like the Bowery Ballroom (NYC) and the Roxy (L.A.)
- Used organizational and communication skills to keep the production running smoothly and maintain camaraderie while circling the entire perimeter of the US in a full tour van
- Performed a full opening set of my original music when the tour's opening artist fell ill

NASA Goddard Space Flight Center

Summer 2020

Intern

Satellite-Based Mapping of Global Environmental Change

- Took lead on building four user-friendly web applications, analyzing satellite data (including the Landsat series) to visualize climate change impacts with mentorship.
- Drove and delivered design decisions for an intuitive UI to allow users to observe ice melt, hurricane disturbances, precipitation trends, and droughts

ADDITIONAL INFORMATION

- Awarded all-expenses merit scholarship to UMD; featured as model Banneker/Key student for new recipients.
- President of Animals for Animals at the University of Maryland (2022-2024)
- Co-Lead of March For Our Lives, Howard County (2019-2020)
- Scaled an Instagram account to over 10k followers with music theory instructional videos
- Piano, Guitar, Alto Saxophone, Music Production (Logic), Video Production (Final Cut Pro), Public Speaking
